Technical Data

Be more Elroq

The future is electric and it will come in all sizes. With the new Elroq, our electric cars enter a new segment. A smaller, more agile take on our already proven and popular tech. It is also our first model to introduce our Modern Solid design language to series production.

On the outside, the signature element of the Modern Solid design language is the sleek and stylish Tech Deck Face, which will become the distinctive feature of all future Škoda electric models. The Air Curtains emphasise our focus on efficiency by making the Elroq one of the most aerodynamic Škoda models to date, boasting an aerodynamic coefficient of 0.26. With a selection of batteries of up to 82 kWh and several choices of single or dual motor drivetrains, this allows the new Elroq to achieve more than 560 km of range.

The interior will pamper the driver and passengers with state-of-the-art ergonomics and a complete package of displays and screens, including the Augmented Reality Head-up display. At the same time, the upholstery was made with specific attention to sustainability, including the use of recycled materials.

With the new Elroq, the future is not only electric. It is also full of style and driving enjoyment, while also being environmentally friendly.

The world of Modern Solid

As the first production model to use the Modern Solid design language, the Elroq stands out with its bold and dynamic looks built out of straight lines and sleek shapes. The stylish look is highlighted by elements like the sharply-styled headlights or newly designed front bumper with Unique Dark Chrome front spoiler.

Tech Deck Face

The Tech Deck Face is a modern, glossy black interpretation of the traditional Škoda grille, which also houses functional elements like front radar. It is flanked by the sleek, dynamic running lights, while the main headlights are mounted lower.

Aerodynamic rear

The powerful Modern Solid design language continues in the rear, with the large black diffuser with Unique Dark Chrome insert and angular Air Curtain outlets on the sides. The rear lights with dynamic turn signals are a subtle finishing touch.

Virtual pedal

The tailgate can be equipped with a virtual pedal enabling contact-free access. This is available exclusively in the package with the electrically-controlled 5th door and KESSY.

KESSY

With the new version of KESSY (Keyless Entry, Start and exit System), all doors can be used to unlock or lock the car. The Walk Away function also locks the car automatically once you leave the vicinity of the car.

Modern and sustainable

The Timiano green colour is certainly not the only thing green about it. Available in a choice of four Design Selections, the simple and spacious interior focuses on providing a sumptuous experience in a sustainable way. That's why it uses modern eco-friendly materials like Econyl, Recytitan, and Technofil, made from recycled materials such as PET bottles, nylon from fishing nets or repurposed clothing. And you can get it with stunning orange seatbelts that make for a truly unique experience on board. Being sustainable has never looked so stylish!

Cockpit of the future

The small Virtual Cockpit display of the Elroq was specifically designed to only show the most important information for a driver of an electric car. Besides standard driving data, you can highlight navigation, driving assists, or both. Everything can also be displayed on the Augmented Reality Head-Up display, like the “floating” navigation arrows.

Always in control

All the information that you need, always where you need it. The combination of Virtual Cockpit, 13" Infotainment display, and Augmented Reality Head-up display will show the most important information right in front of you, allowing you to focus on what really matters.

The new steering wheel

The multifunctional steering wheel comes with leather upholstery as standard. The Elroq is also the first Škoda model with lettering instead of the badge on the steering wheel, complimenting the Modern Solid design language.

Infotainment

The world at your fingertips. With a 13" touchscreen, the Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features that will make travelling a truly enjoyable experience. Operation is smoother and faster thanks to the new generation of MIB system.

Electric seats

The seats offer a sporty shape with lots of lateral support, yet remain supremely comfortable. They are electrically adjustable and offer a memory function. The upholstery makes use of sustainable recycled materials.

Ambient lighting

The attractive looks and tactile surfaces of the interior are complemented by the ambient lighting with a wide choice of colours to suit your mood in any moment. Simple, yet so varied!

Always charged

The phone box provides wireless 15 watt charging for your smartphone with cooling to prevent your device from overheating. This compartment is easily accessible and offers space for a second smartphone beside the one being charged.

Jumbo box and the centre console

Electronic devices can be safely stored in the Jumbo box in the front armrest, while small items can be placed in a removable tray. And when the air conditioning is on, you can even cool your snacks. There are also two easy-open cupholders.

Rear armrest

The rear armrest with a pair of cupholders can be folded out when the rear middle seat is unoccupied. The cupholder cover helps to stabilise the drinks in case of heavy braking.

Little things that make a big difference

Even the simplest details can make your everyday experience much better. A plethora of small, ingenious ideas that will surprise you and make your life on the road that much easier.

Storage compartment

Rear passengers can now also have everything they need easily to hand. The storage compartment fits over the centre tunnel and provides space for smaller items, phones, or drinks.

Boot space

In its standard configuration, the Elroq offers 470 litres of cargo space. If you need even more space, you can increase the useable volume to 1,580 litres by folding down the rear seats. And it is not just about space – with its various smart features and compartments, the Elroq takes the ease of transporting both small and large things to another level.

Charging cable net

The net pocket under the boot cover, available in the package with the Virtual pedal, offers a convenient place to store your charging cable and always have it at hand, even when the boot is full.

Connectivity

With MyŠkoda application, you can access important information and controls remotely from your phone. The Elroq also comes with Pay to Park and Plug & Charge functions. With Apple CarPlay or Android Auto, you can safely and easily use selected smartphone apps on the infotainment screen.

Turn Assist and Collision Avoidance Assist

Turn Assist monitors opposing traffic when turning left at low speeds between 2–15 km/h. In critical situations, it can stop the vehicle and turn on the warning lights. Collision Avoidance Assist supports the driver by actively increasing the steering moment in the event of an impending collision with a pedestrian, cyclist, or another vehicle – ideally preventing the accident with a controlled evasive manoeuvre.

Travel Assist

The Travel Assist system as well as its higher version combine the functions of several assistants and ensure that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

Door Opening Warning

When you stop your car and open the door (to get out), the system can detect other road users, such as vehicles, cyclists, runners, pedestrians, etc. up to a distance of 35 m. If it detects an approaching object, it warns the crew in the front and rear, both visually and audibly, about getting out of the vehicle.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Trained Parking

A highly advanced parking assistant is used to automatically complete a parking manoeuvre in a familiar environment, e.g., at home. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to the garage or a parking space. After that, as soon as the car recognises the scanned route, it will ask you (via the infotainment) whether it should take control. Following your approval, the vehicle will park itself. You simply monitor it from the driver's seat.

Additional experts on board

To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

Intelligent Park Assist

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Elroq will autonomously drive itself into the parking space, without driver having to touch the wheel or pedals.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Remote Trained Parking

Train your car to perform a parking manoeuvre and oversee the process from the outside. Remote Trained Parking is a highly advanced parking assistant which enables the car to perform familiar parking manoeuvres without the driver being present in the car. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to the garage or a parking space. After that, as soon as the car recognises the scanned route, it will ask you via the infotainment whether it should take control. Following your approval, the vehicle will park itself, as long as you stay next to it and monitor the process for safety. You simply monitor it from the outside, using your phone app.

Remote Parking

Let your car park itself while you just watch from the outside. With Remote Parking Assist, you can use the Intelligent Park Assist feature to park in parallel or perpendicular spaces. Finally, you can move the car in or out of the parking space. For safety, the driver needs to watch the whole process and control the car by keeping the button in the app pressed.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Studio interior

Black grained décor
Grey fabric upholstery

Design Selections for the interior

With Design Selections, you can create a space that suits your style and personality. Each Design Selection tastefully pairs carefully selected upholstery materials and colours with dashboard décors, specific details, and even comfort features. Select the design that suits you best!

Design Selection Studio

The grey fabric seat upholstery with black textile dashboard and door pads with stitching creates a quiet, elegant atmosphere, set off by the black grained décor on the dashboard and doors.

Loft interior

Grey Recytitan pad with green stitching

Anthracite décor

Grey artificial leather/Recytitan upholstery with green stitching

Design Selection Loft

The seat upholstery combines artificial leather with Recytitan recycled fabric in elegant grey colour with green stitching. It is tastefully complemented by the glossy anthracite décor and Recytitan dashboard and door pads in grey colour with green stitching.

Lodge interior

Grey artificial leather pad with orange stitching
Fairy Dust décor
Grey artificial leather/black Technofil upholstery

Design Selection Lodge

The seat upholstery in a combination of artificial leather and Technofil recycled fabric in black and grey colour contrasts with the orange stitching and seatbelts. The Fairy Dust décor on the dashboard and doors is complemented by the grey artificial leather dashboard pad with orange stitching.

Suite interior

Leatherette pad with Cognac stitching
 Diacut Cross décor
 Black leather/leatherette upholstery with Cognac stitching

Design Selection Suite

The elegant black colour on the seat upholstery is crafted in a combination of real and artificial leather with Cognac stitching. It is exquisitely complemented by the Diacut Cross décor and door and dashboard pads in stunning artificial leather with Cognac stitching.

* Ventilated seats will be available later.

Sportline

Dynamic style for every day

Efficient doesn't mean boring! The Elroq Sportline adds a spark of dynamics to the overall package, with blacked-out trim and side mirrors, unique badge, and specific wheels. The Sportline Design Selection is available for all battery versions.

Style and functionality

The black glossy features, such as the exterior side-view mirror caps, side window frames, roof railings, and inscriptions on the tailgate bring more dynamism and emotion to the vehicle's appearance. The full LED

Matrix headlights and 20" Vega Black alloy wheels come as standard. The look is completed by a black badge with Sportline lettering on the side.

Sporty elegance and comfort

Dynamic looks, exclusive details, and quality materials are what makes the Sportline Design Selection unique. It includes front sports seats upholstered in Suedia artificial leather, leatherette dashboard pad with grey stitching, Carbon décor, and black headliner.

Sportline interior

Leatherette pad with grey stitching
Carbon décor
Suedia/leatherette upholstery with grey stitching

Design Selection Sportline

The sporty ambience aboard is created by the upholstery in a combination of grey Suedia artificial leather with leatherette. The Carbon décor and leatherette dashboard and door pads with contrasting grey stitching provide the perfect finishing touch.

RS

Recharged with speed

Experience the electric power in a compact, agile package. With two motors providing 250 kW, the Elroq RS is electrifying both on a city run or a spirited drive in the hills. And with a range of sporty details, it's impossible to overlook.

The RS style

An exciting drive deserves an exciting look. In the front, the Elroq RS is easily distinguishable by its unique aerodynamic black front bumper, illuminated Tech Deck Face, and LED Matrix headlights. In the rear, the gloss black bumper with prominent diffuser is complemented by a black roof spoiler. All around, the gloss black details like the side mirrors

and roof rails, together with the black badging complete the dynamic, stylish look. The optional 21" wheels in black-and-silver look with Aero covers add the finishing touch to this sporty charisma. As a nod to the famous racing tradition of Škoda cars, the RS badge is included on the sides.

RS Lounge

Enjoy the driving dynamics in the exclusive ambience of the RS Lounge Design Selection. The high-quality materials make for a pleasant tactile experience on board. The seats are upholstered in a combination of black leatherette and Suedia, which is mirrored on the dashboard pad and door panels. The Carbon décor on the dashboard and contrasting lime green stitching all around create a sporty ambience that will help you truly savour the dynamic experience of the RS model.

Accessories

Genuine Accessories that perfectly fit your car

It's the finishing touches that make a car truly yours. Tailor your Elroq to your taste and needs with Škoda Genuine Accessories and enjoy a bespoke experience.

Enhance the looks with a choice of wheels and design details like mirror caps or specific door sills. Give the interior a more upscale look with premium carpets or make it more rugged with all-weather mats.

There are also other ways to make your life easier. A plethora of holders, hooks, charging cables and smart ideas like door-mounted bins and entertainment packages for rear passengers will make your travels a real joy.

The safety of you and your passengers, big and small, as well as your four-legged friends, is always our first priority. That's why we offer not only a comprehensive range of child seats, but also seatbelts for your dogs.

Anything you need to take with you will find its secure place in the boot thanks to various clever features and ideas.

Make your Elroq just perfect for you.

20"

Draconis

Colour: silver metallic, brushed
Front: 8.0J × 20" ET 45 for 235/50 tyre
Rear: 8.0J × 20" ET 45 for 235/50 tyre**
Code*: 5LA 071 490K 8Z8 / 5LG 071 490K 8Z8
Rear: 9.0J × 20" ET 42 for 255/45 tyre***
Code*: 5LA 071 490L 8Z8 / 5LG 071 490L 8Z8

* black code = wheels without centre caps, available separately / grey code = wheels with chrome/black centre caps
** valid for Elroq 50/60
*** valid for Elroq 85/85x

19"

Luter

Colour: black metallic
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499G FL8

Luter

Colour: silver metallic
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499F 8Z8

Proteus

Colour: black metallic
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499C FL8
5LG 071 499C FL8

19"

Regulus

Colour: anthracite metallic, brushed
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499D HA7
5LG 071 499D HA7

Regulus

Colour: anthracite metallic
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499E HA7
5LG 071 499E HA7

19"

Crystal

Colour: black metallic
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499A FL8
5LG 071 499A FL8

Crystal

Colour: silver metallic
Front: 8.0J × 19" ET 45 for 235/55 tyre
Rear: 8.0J × 19" ET 45 for 235/55 tyre**
8.0J × 19" ET 45 for 255/50 tyre***
Code*: 5LA 071 499 8Z8
5LG 071 499 8Z8

May be used with snow chains.

* black code = wheels without centre caps, available separately / grey code = wheels with chrome/black centre caps
** valid for Elroq 50/60
*** valid for Elroq 85/85x

Technical Data

Technical specifications	50	85
Engine		
Power (kW)	125	210*
Torque (Nm)	310	545
Battery capacity (kWh) – gross	55	82
Battery capacity (kWh) – net	52	77
Performance		
Maximum speed (km/h)	160	180
Acceleration 0–100 km/h (s)	9.0	6.6
Range – WLTP (km)	357–375	540–580
Energy consumption WLTP (kWh/100 km) – combined	15.8–16.7	15.2–16.6
Drive type		
Drive	Rear-wheel drive	Front-wheel drive
Charging		
AC (0–100%) – power/time (according to the type of cable)	11 kW/5 h 30 min	22 kW/2 h 30 min
DC (10–80%) – power/time	145 kW/25 min	175 kW/28 min
Weight		
Kerb weight – in standard version without driver (kg)	1,874–2,014	2,014–2,181
Payload – incl. driver and extra equipment (kg)	413–553	469–606

Further specifications			
Body		Front brakes	Internally cooled disc brakes, single piston for the 50; two-piston for the 85
Type	5-seater, 5-door, 2-compartment	Rear brakes	Drum brakes
Chassis		Clearance (mm)	186 (for the 50); 186 (for the 85)
Front axle	McPherson suspension with a sheet metal subframe and lower wishbones	Luggage storage space (max. l)	
Rear axle	Multilink axle, with five transverse arms, without a longitudinal arm	Without spare tyre, with rear seat backrests – upright/down	470/1,580

* The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature, and condition or physical age of the high-voltage battery.

** Maximum electrical output of 210 kW: Maximum output that can be accessed for a maximum of 30 seconds, calculated in accordance with UN GTR No. 21. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature, and condition or physical age of the high-voltage battery. The availability of the maximum power requires the high-voltage battery to be between 23°C and 50°C and have a charge level > 88%. Deviations from the aforementioned parameters in particular may lead to a reduction in power through to the complete unavailability of the maximum power.

The battery temperature can be indirectly influenced by the auxiliary air conditioner to a certain extent and the charge level can, for example, be adjusted in the vehicle. The amount of power available at a particular time is shown in the vehicle's power display. To maintain the high-voltage battery's usable capacity as effectively as possible, a battery charging target of 80% is recommended if the vehicle is used daily (to be switched to 100% prior to long-distance journeys, for example).

WLTP – World harmonized light-duty vehicles test procedure.

NOT FINAL

Specifications may differ depending on the battery version and chassis configuration.
